4-H Project Rules

1. Eligibility: Exhibitors in the divisions of this department must be bona fide members of Colorado 4-H whose project work and records are certified and up-to-date and deemed eligible by the appropriate Extension specialist. In addition, exhibitors must be at least eight years of age, must not have reached their 19th birthday as of December 31 of the current enrollment year, and must satisfy other eligibility requirements (if specified) for a class, to compete in that class. (The project work must be the member’s own work. Sources must be cited. Plagiarism will result in disqualification.)

2. 4-H members may enter only once in the same class.

3. Members must be enrolled in the project (which may be broken down into units, levels, or categories) in which they exhibit.

4. Only one exhibit in each class will be accepted from each county. Projects entered in the wrong class will be moved to the correct class when possible.

5. In the case of projects that are to be taken sequentially, if a member enrolls in two units of the same project in the same year and shows mastery in a lower-level unit, they are expected to exhibit in the higher-level unit. Exceptions to this rule will be stated in applicable project’s rules.

6. 4-H e-Records may be completed in pencil, ink, or by computer. The choice will not affect judging.

7. Display boards must meet the specifications and should fold flat for transport. The standardized display board size of 4ft. x 3ft. is to be used. No sharp items including but not limited to blades, thumb tacks, fishing hooks, knives, etc. are allowed on display boards or as part of any other exhibit.

8. Projects are divided into Junior, Intermediate, and Senior age groups. The age range for Juniors is 8–10, Intermediates is 11–13, and Seniors is 14–18 years as of December 31 of the current 4-H year.

9. Exhibit entries will be done online in FairEntry. The Extension specialist is to enter each exhibit online with a description.

10. Each exhibit and binder/notebook (containing the e-Record and other materials) is to have a FairEntry label (Avery 5161) designating the following: exhibitor name, county name, department, division, class, and age. The label needs to be on the upper right-hand front outside of the binder/notebook. An entry card printed from FairEntry needs to be on the exhibit (usually the back of the exhibit or on the flap). Read special instructions about tags for some exhibits. For example, ceramics, clothing, leathercraft, heritage arts, etc. have specific instructions. All exhibits must be accompanied by a complete label and entry card. For security reasons, do not list the member address on projects.

11. Exhibit entries are to be entered by 5 pm on Monday, August 5, through FairEntry. Each county will be assigned a time to bring projects to State Fair on Tuesday, August 13. Special requests for counties with late fairs can be made to bring exhibits on Wednesday, August 14, up until 9:00am. Judging will begin at 10:00am on August 14. Exhibits will be taken down on Tuesday, September 3. All counties/areas need to arrive at 8:00 am to help take down and sort exhibits by county in the three 4-H buildings before loading your exhibits into vehicles. Take down will start at 8:00 am in the Exhibit Hall and continue through the Dining Hall and Auditorium until finished. The 4-H buildings will be swept, closed, and locked by 12:30pm. Exhibits left after 12:30pm will be the responsibility of the county. Note: we can also use help counting ribbons left over for our ribbon inventory.

12. All Champion, Reserve Champion, and placing award exhibits must be displayed and remain on display for the duration of the state fair.

13. Any exhibit released for a special activity during the state fair must be returned for display.

14. Management will not be responsible for loss or damage to exhibits, although it will use all care to ensure their safety.

15. Exhibits of unusual size or shape may not be on public display. Exhibitor cards and ribbons will be displayed in project areas. Projects may not be displayed if there is a safety, health, or space issue.

16. Unless otherwise stated in the project requirements, projects will be evaluated on the quality of the information completed in the e-Record (25 percent) and the quality of the exhibit (75 percent).
State Fair Judging and Ribbon Awards

A. Champion and Reserve Champion ribbons shall be awarded only to exhibits that meet all the exhibit requirements and standards. Third through 10th place ribbons will be awarded according to standards and requirements.

B. Grand Champion and Reserve Grand Champion exhibitors will be declared in each project of the 4-H section from designated class champions. In the Junior, Intermediate, and Senior divisions, a Grand Champion will be selected from all champions from each age category. The remaining class Champion and Reserve Champion exhibits in the class from which the Grand Champion was chosen will be eligible for Reserve Grand Champion consideration.

C. Those exhibits not meeting requirements and standards will be awarded a state fair qualifier ribbon.

D. Items entered in the wrong class that cannot be moved to the correct class will not be eligible for a placing ribbon.

E. The American System will be used to rank the 4-H exhibits. This system uses product standards and fulfillment of exhibit requirements to rank exhibits. It also uses the idea of competition among exhibitors to establish ranking.
Display Board Guidelines for State Fair 4-H Exhibits

Display boards are a great way to share information, but when viewers walk by, they spend only 60-90 seconds looking at each display board. Make your board stand out by highlighting the main points of your project in a fun, interesting way. (4-H specialists will print and attach a FairEntry display card to each exhibit.)

Follow these guidelines to create a display board for the state fair.

**Shape**

Design your exhibit so information fits on the display. Remember, you have 1 large surface, and 2 smaller side wings.

**Space**

Your display should only discuss one main topic. This will help it look neat and uncrowded.

**Attachments**

Make sure pictures and objects are securely attached to the board. Use glue for pictures and paper, and consider wires, zip ties, or staples to attach bulkier items. Do not attach items that are so heavy that your board can’t stand or fold.

**Size**

Display boards for the state fair must measure 4 ft. wide x 3 ft. tall. They should be made of lightweight cardboard, but not poster board. Pre-cut boards are available at most craft and shopping centers. No part of your display may extend beyond these boundaries.

**Display Books**

Your e-Record book should accompany your board. You may use 3-ring binders or other notebooks that will keep the pages securely inside. You may not use slider-type binders.

Please place a label printed from FairEntry with the following information in the upper right-hand corner of the front cover: Name, County, Project Area, Class, 4-H Age Division.

**Matting Photos Guidelines**

Matting a photo means to put a border around it. Choose a color that brings out another color in the photo but is different than the background color. Light matte colors will help lighten a dark photo and a dark matte color will make the colors look deeper and richer. Matting adds dimension to compliment
and accent the photo. Matting will help focus attention on the photos and add visual interest along with balance to the layout.

For county and state fair display, please select a photo that is 5” x 7” in size that is one of the photo techniques you are using within your unit (read specific requirements for each unit). The maximum size for the matted photo will be 8” x 10”. These photos will be hung for display. Please attach string or some type of hanging mechanism for the photo to hang. Please do not put the photo in a frame.

Please attach to the back of your photo the following information:
A. Member name
B. Member county
C. Subject
D. Date photo taken

Project Exhibit Rules:
Note: Please read 4-H Project Exhibit Rules on page 3.

A. Cake should be placed on a very firm, disposable surface (foam core, strong cardboard, plywood, particle board, etc.), cut parallel to the shape of the cake and must be 1½ “on each
side from the base of the border, not the cake. The surface should be covered. Freezer paper is not advised because it absorbs grease. The cake board must be covered with a food safe material, such as aluminum foil. If you use decorative or gift wrap paper or fabric, it must be covered in food quality plastic wrap.

B. It is recommended that members learn the basic cake decorating skills included in Units 1-3 before taking any of the more advanced units. Youth may then select the unit which includes the skills they wish to learn. Units 4-6 do not have to be taken in the order as numbered and are for Juniors, Intermediates, and Seniors. Units 7-9 do not have to be taken in the order as numbered and are for Intermediates and Seniors. Units 10-12 are for Senior members only.

C. **Real** cakes are required for Units 1-6. Cake forms are preferred for exhibits in Units 7-10, as they hold up better under state fair conditions.

D. Once a 4-H member has received a placing in the top 10 or a grand champion, they need to move to another unit because the skills in that unit have already been mastered. Also, if a member repeats a unit, they must show what new skill was learned.

K. In Unit 12, 75 percent of the judging will be on the notebook.

L. **All cakes require a bottom border.**

M. The definition of a **two layered cake** is two of the same size cakes placed on top of each other. This is used for units 3, 7, 8, & 9.

**Model Rocketry**

Note: Please read 4-H Project Exhibit Rules on page 3.

Note to all units:

Project Exhibit Rules for All Units:

1. Rocket exhibits must relate to the skill level for the unit entered. Units 1-4 should include the color picture of the rocket and skill level title from the rocket-kit package as part of its record book. All project material must be organized and secured in a sturdy binder/notebook. Unit 6 must have a copy of plans or blueprints including instructions “step by step” to build the rocket.

2. Each unit level will list what type of fins (single-piece or multi-piece) and what type of material (plastic, balsa or basswood, plywood, composite, or fiberglass) may be used for the exhibit rocket. Fins in all units must be finished with paint except for clear fins used with scale or novelty rockets. No plastic fins for Units 1-3.

3. Unit 4 members may build helicopter and glider recovery rocket kits.

4. Rocket design cannot include humanoid characteristics or representations (like dolls). Any toy or 3D human or animal representation can only be in the payload section of the model rocket. Any object displayed (and launched) with the rocket should be non-living.

5. Rockets are to be displayed and held vertically by a substantial rod (not a coat hanger rod) or wood support (like an unpainted dowel rod that fits into the motor mount cavity snugly). The base board should be heavier than the rocket and appropriate to the size of the rocket, not to
exceed 12"x12"x1" thick. Only the rocket will be judged. The base, at minimum, must be sanded to eliminate splinters. Optionally, the base could be clear coated or painted with up to three colors. No triangular stands can be used for displaying the rocket.

6. Do not include live or expended engines in the rocket exhibited.
7. If the rocket is damaged in launching, it can still be judged for quality of construction along with the e-Record and pictures.
8. Display rockets cannot be used for the Rocket Fly Day competition at State Fair.
9. No launching pads should be used for displaying the rockets.
10. Launching your display rocket is not a requirement. If you are participating in Rocket Fly, make two rockets – one for exhibit and one to launch. At least one rocket should be launched as part of the project to complete the “Launch Information” section of the supplemental sheet. If you are not able to launch due to a fire ban, etc. you must have an explanation on that sheet.
11. Any decals used must be on the rocket.
12. For each rocket used during your project, including your exhibit rocket, make a copy of the Model Rocketry Information page of the e-Record. Include the following information for each rocket on a page of its own:
   a. Exhibit manufacturer and model name
   b. Skill level
   c. Number of fins and fin material
   d. Recovery system type
   e. Where the rocket is from (i.e., stock kit)
   f. Rocket power
   g. Fuselage type
   h. Engine information: engine type, engine code, label color

13. If you launched any of the rockets used in your project, provide the following information on the Model Rocketry Information page under “Rocket Launch Information”:
   A. Number of times launched
   B. Type of launch pad used
   C. Kind of electrical system used
   D. Tracking method used if applicable
   E. Altitude achieved (optional)
   F. Observer’s distance from rocket (observations of rocket stability, flight path, etc.; any special problems before, during and after launching)
   G. Did you have any special problems, before, during, and after launching?
   H. What did you do to overcome the problems you encountered? Were any modifications made?

Please read specific rules for your unit.

**Woodworking**

*Note: Please read 4-H Project Exhibit Rules on page 3.*

Units 1, 2, and 3 in Woodworking have very specific restrictions on the tools used in building an article to display. This is done for reasons of safety and to provide a fair comparison among projects in a unit. An exhibit that shows evidence of not following these restrictions will not be ranked in the top-ten placing.

Projects for Units 1 and 2 will be a maximum size of 3 feet by 3 feet by 7 feet as they are meant to be used or displayed. The item must be stable when standing to be displayed.

Note: In making all placings, judges will consider straightness, accuracy and smoothness of saw cuts; the difficulty and preciseness of joints; the skill employed in the use of nails, screws, gluing and other hardware; freedom from tool or sandpaper marks; appropriate finish evenly applied; article attractiveness, proportions, and use of proper wood for the intended use; ability to follow instructions; quality of workmanship; and completeness of e-Record. Always use proper safety gear.

A. Exhibits may include stand-alone items such as hand-wrapped rods or hand-made lures.
B. Exhibit of record kept during the year and display illustrating a chosen aspect of skill area is required. Exhibits may include a display board or a stand-alone item such as hand-wrapped rods or hand-made lures. A display board is to be a specific skill level area related to the exhibit. When using a display board, it is strongly recommended to use photos, drawings, or other illustrations rather than actual items (i.e., rods, reels, other tackle or accessories). Educational materials should not extend beyond the edges of display boards. The standardized display board size of 4 ft. x 3 ft. is to be used with 4-H projects. No additional items may be included in front of the display board. Hooks must be removed from lures and jigs when these items are used in an exhibit.

C. No knives are to be displayed.

D. **Members may have entries in both the display board classes and the stand-alone classes.**
