Exhibit: Completed Computer e-Record presented in a sturdy binder. **Programming Exhibit:** (a printed copy of a digital presentation must be included in the e-record. **Beginning Programming Exhibit:** a simple program using Scratch (or other simple graphic programming). The program must include 8 different commands including looping and getting input from the keyboard and mouse. **Intermediate Programming:** a program using Scratch (or other simple graphic programming) that you have downloaded from the internet and modified. Compare the two programs and demonstrate the changes you have made to the original program: OR create an animated storybook or video game using Scratch (or other simple graphical programming language). **Advanced Programming:** an original program using higher level programming language such as Python, Javascript, C++, etc.)
 Judges may use the back of the form for more comments.

Judging Element 1: 4-H e-Record: Complete means that everything has been filled out. Not complete means that there is something missing and needs a comment as to what is missing or why it is not complete. Project will be evaluated on the quality of information completed in e-record (25 percent) and quality of exhibit (75 percent).
