Poultry

Tips:

- Poultry require around 2-6 square feet per bird depending on species.
- They need a pen or a shelter from the weather and from predators.
- Poultry for fairs are usually born between January 1st and April 30. Market Chickens may be born later.
- Good nutrition is critical for the success of the project. Visit with your Extension 4-H Specialist and your local feed store for feeding help.
- Clean water daily is essential for poultry.
- Parasite control is necessary to promote poultry growth and health. Visit with your veterinarian for a parasite plan.
- Egg production can be a business!

Resources:

- Exhibit & Judging Requirements
- Record Books
- Manual Information
