As a parent or supporter, I realize that animal projects require a considerable amount of expense and labor. I will support this youth in his/her efforts and allow him/her to learn as much as possible from the experience. The youth is expected to be responsible for labor, care, and management decisions affecting the project. I will help where needed by giving guidance and instruction.

Goals may be personal or specific to your project. Ask yourself, "What do I want to accomplish this year?" Record ONE **SMART** goal that is **S**pecific, **M**easurable, **A**ttainable, **R**ealistic and **T**imely. Record two "To Do" plans that will help you complete your goal. Use complete sentences.

Colorado Horse Identification e-Record

How many horses will you have as your 4-H project horses this year? _____

Please list them:

Horse(s) Registered Name	Horse's Barn Name	Value of horse (purchase price or market value)
Total value of horses:		\$

Total: _____

You will need to **print the Horse ID page from 4-H Online for each horse** and attach it to your e-record behind this page. For a neat presentation you can use a clipping tool to take a snapshot of the information in 4-H Online to put onto a document and then do the same for the photographs.

How to Add an Animal ID:

1. Log-in to 4-H Online using your family email.
2. Go to the Member page.
3. Scroll down to list of family members and click on family members and click on "View" next to your name (just like when you were registering).
4. Click on the "Animal" button on the menu at the left of the screen.
5. Choose your animal type: Horse.
6. Click "Add Animal".
7. Fill out the information and add photos.
8. Click on "Save".
9. Print each Animal ID and insert behind this page in this record book.

Equipment/Supplies Inventory

At the start of the project year, list all the equipment you own under Item. At the end of your project year, add any new items you own to the Item list. If an item is given to you at no cost (i.e. donation, gift), still include a value amount in your inventory as that item still has monetary value for your project. Examples to include tack, grooming supplies, apparel, barn/stable supplies, blankets, etc. Do **NOT** include consumables such as fly spray, feed, vet supplies, etc. Make additional copies of this page as needed.

******Items sold should also be reported on your Income Record.

Levels Advancement Page

Please record the dates of each Levels Advancement in the chart below. Add a page for each horse as the Levels Advancement Program is based on horse/rider combination. The written tests only need to be completed once so the dates should remain the same regardless of how many horses.

The Advancement Levels program is a logical step-by-step guide to teach youth horsemanship and horse care. Safety and proper basics are stressed throughout the Levels program. The skills learned at the beginning levels are reflected in properly mastering the more advanced levels.

This page does **NOT** include daily care such as stall cleaning, water bucket cleaning, grooming or feeding.

Include pictures that demonstrate the progress of your project throughout the year or a variety of things you did with your 4-H Horse project. Additional photos may be added (maximum of eight photos). It is recommended to limit four pictures to a page with captions so it can be easily seen.
