Extra things to look for

- Taking trips and tours related to veterinary science
- Visits or interviews with a veterinarian
- Sharing the information they learned through talks, demonstrations and displays
- Pictures of activities they have participated in
- Researching subjects at the library or online
- Completing extra activities with their leaders through the leader's guide manual

Members must do a minimum of seven activities from the manual each year. They may do any combination of activities and booster shots to complete seven activities. These units are meant to be completed over three years, so do not judge the activities and booster shots done in previous years. A member can, however, do more than seven activities in one year and should not be counted down for going above and beyond

Be sure to check the dates of completion listed on page 4 of the project book that they were done in the current 4-H year (October 1 – September 30). Also check that they were approved by the parent of leader with their initials.
