- Turn right onto S Shields St
- Turn left onto W Elizabeth St & go 3 miles
- Turn right at S Overland Trail
- Turn left on Rampart Rd
- Proceed to 3107 Rampart Road

FCS Workshop Descriptions

Design Trends Exploration Lab

Nancy Richards Design Center, Design Exchange & Rm 212

In this workshop, you'll explore what's trending right now in fashion, interiors, and design - and what's about to be next. You'll break it down to spot the colors, styles, and ideas that are shaping the vibe. Then you'll create your own mood board to show off your vision and bring your style to life!

Archiving Agricultural Stories **Tami Eggers & Linda Meyer** **Morgan Library Lobby by Courtyard Doors**

History, Archives, Agriculture and Storytelling: Using oral history and research skills, you will help tell the story of a rare apple variety that has been brought back from the brink of extinction. In this hands-on workshop, you will dig into Colorado's agricultural past, discover treasures of the archives, and learn from an arborist and an archivist. Come curious and leave with skills and a story that matters.

Fuel for Performance: Case Study Challenge **Kira Shyrock** **Behavioral Sciences Bldg, Rm 105**

Have you ever had a time when you felt tired or "out of energy" during school or sports? Learn how your food and beverage choices can impact your energy, mood, and performance in activities. Through a series of case studies, participants will learn how to build confidence in choosing healthy foods that can fuel your work and play.

Career Exploration: Nutrition & Food Science **Jadyn Ford** **Stadium, Rm 1215**

Do you like food? So do we! Our students go on to be registered dietitians, sports nutritionists, food product developers, flavor chemists, and so much more. Join our session to learn about the many opportunities in CSU's Department of Food Science and Human Nutrition.

11:00PM All Lights Out

FCS Workshop Descriptions

Exploring How Work Ethic Impacts Productivity & Wellbeing:

Chad Reznicek
Stadium Rm 1208

Agriculture is a highly demanding occupation where hard work is an essential component of success. Join us for an interactive workshop designed to help promote a mindset of working smarter instead of harder. We will explore values and traditions around work habits and how to make small adjustments that increase the odds of success while improving work-life balance.

Art Smart: Create with Respect **Perri Pelletier & Jen Loewen** **Stadium Rm 1204**

This workshop will use artmaking as a lens to explore the difference between cultural appreciation—honoring and uplifting traditions—and cultural appropriation, the use of cultural elements without understanding or respect. Drawing inspiration from folk and Indigenous crafts, we'll examine how practices like beading and weaving span many cultures, while also recognizing that specific patterns and designs often hold distinct cultural meanings. The workshop will also incorporate elements of civil discourse, fostering open, respectful dialogue as we reflect on responsibilities as artists.

H is for Health-The Masters of Self Care **Kristen Wulfsberg** **Stadium Rm 1208**

In this interactive team-based event, you'll play a Jeopardy-inspired game focusing on the various ways self-care can add to your personal health. You'll be put into groups of 4 and then put to the test! Progress through the various stages of this game by answering questions and performing tasks...can you and your team be the Masters of Self Care? Let's see!

Civil Discourse for Life **Lilly Lucas & Lisa Sholten** **Stadium Rm 1216**

This workshop will explore the topic of civil discourse and how skills can be gained by attending national 4-H conferences.

Career Pathway Workshop Information

Elements of Leadership

**State 4-H Senate
Biology Rm 136**

Join the State Officer Team as we 'dig into' and explore the 4 essential elements of leadership.

Enterprisingly Human-Skills for the Future

**Kristen Mullen
Nutrien Rm 135**

Join the College of Liberal Arts for a science fiction activity where you can create dream teams to run futuristic invention projects. Learn about the value of arts, humanities, and social sciences while problem-solving the challenges of tomorrow.

Construction Management: Blueprint to LEGO Bridge

**Jazmin Arias
Guggenheim Rm 227**

Students will work in teams to take on the role of a construction manager by building a LEGO bridge. Participants will practice plan reading, estimating project costs, managing materials procurement, and completing the construction of their bridge. Through this activity, students will experience how real construction projects are planned and managed from start to finish. The session will start with an introduction to the Construction Management program at Colorado State University.

Sowing Stewardship

**Brooke Carlson
Behavioral Sciences Bldg, Room 105**

This workshop is a chance to check out and try out some lessons for elementary-aged students that can be used to teach about agriculture in your community. These lessons revolve around stewardship and how we can teach others to care for the land while having a little fun.

Schedule Overview: Thursday

7:00AM- 7:50AM Breakfast @ CSU Ram's Horn

8:00AM- 11:30AM COMMUNITY SERVICE - NO WORKSHOP TRACKS (Buses load at 7:45AM)

**8:00AM- 9:15AM Horse & Livestock Awards Ceremony
Lory Student Center Theater**

10:00AM- 12:00PM	Workshop	Location
Equine Track	Equine Hands On 4-H Workshops	Stadium, Rm 1204
Livestock Track 1	Speak Up for Agriculture	Stadium, Room 1207
Livestock Track 2	Calf Care Basics	Stadium, Room 1205

11:30AM- 12:40PM ALL Community Service, Equine & Livestock Participants - Travel to Ram's Horn for Lunch

12:45PM ALL: Meet outside Ram's Horn to walk to Civic Engagement Workshop

1:00PM- 3:00PM Beyond Ready to Share Your Story:
CIVIC ENGAGEMENT Yolanda Stephen & Jasmine McGee
Johnson Hall, Room 222

3:00PM- 3:15PM Travel back to Academic Village

3:15PM- 4:00PM Rest, regroup and prepare for Senate Meeting & Closing Session

4:00PM- 4:15PM Travel to CSU Theater

**4:15PM- 6:00PM ALL: Senate Meeting & Closing Session
Lory Student Center Theater**

6:00PM- 9:00PM County Night Out

**9:00PM- 11:00PM ALL Conference Participants:
'4-H Roots' Dance @ Edwards Hall**

11:00PM All Lights Out

Beyond Ready

Thursday Civic Engagement Workshop:
"Beyond Ready to Share Your Story"

Ready to improve your storytelling skills?

We've got an exciting, new interactive workshop for you!

On **Thursday from 1-3 pm**, join us to see how
Skills + Experience + Impact = Future Readiness

as you learn how to share your Beyond Ready story in **Johnson Hall, Room 222**.

Improving your personal storytelling skills will help you connect your 4-H experiences to health, productivity, and engagement with others in your community to share ideas and solve problems.

Our guest facilitators are:
Yolanda Stephen & Jasmine McGee from National 4-H Council!

Career Pathway Workshop Information

cATALyst- Activating Teachers & Leaders in Agriculture

**Katharine Eshelman
Nutrien Rm 163**

Through this workshop, we will explore what it means to be an agriculture educator, and how we can teach others about agriculture. By the end of the workshop, you will be prepared to head back to your community and teach others about agriculture!

RAM County Meats

**RAM County Meats
Animal Science Rm 131**

Tour a state-of-the-art meat processing facility. View spaces used for animal holding, slaughter and processing. Sample and learn about beef sticks that are manufactured in Colorado. Volunteer to assist the program by boxing beef sticks for distribution to local charities.

Discover Making a Difference in Health

Tiffany Lipsey

**Human Performance Clinical Research Laboratory,
Moby B Wing, South Side**

During this workshop, attendees will get a behind the scenes look at research labs and outreach programs in the Department of Health and Exercise Science. Our areas span the range from healthy populations to those with chronic disease. Considering a future career in health? Come check out the areas of study and try your hand at some of the tests!

Livestock Workshop Information

Speak up for Agriculture

Colorado Beef Council
Canvas Stadium Classroom 1207

Get ready to speak up and stand out! In this fast-paced workshop, 4-H members will explore the power of advocacy in agriculture – especially when it comes to beef. Through fun, interactive activities, you'll learn how to tell your agriculture story, share facts about beef production, and bust common myths with confidence. Whether you're talking to friends, teachers, or on social media, this workshop will help you become a stronger voice for the food, farms, and families that feed the world.

Calf Care Basics

Kathy Whitman
Canvas Stadium Classroom 1205

Join us for a hands-on workshop where participants will learn the essentials of calf care, including proper calf processing techniques such as tagging and identification, naval treatment, and how to mix and administer colostrum to ensure a healthy start. Come try your hand at drenching a calf.

Equine Workshop Information

Equine Hands On 4-H Workshop

Devan Catalano & Jonathan Vrabec
Canvas Stadium Classroom 1204

This hands-on 4-H workshop explores how genetics shapes the traits we see in horses—from coat color to performance—and what that means for breeding and management. In the second half, participants will tackle real-world equine “wicked problems,” like feeding, health, and management decisions with no single right answer. Through fun activities and group challenges, participants will build skills in critical thinking, teamwork, and decision-making.

Tour Workshop Information

CSU Campus Tour:

Cindy Hoang
Ammons Hall

Kick off your CSU experience with a guided tour and welcome session! This is your chance to get to know the campus you'll be exploring over the next few days, see where students live and learn, and get a feel for what life as a Ram is all about. We'll visit the Oval, Lory Student Center, Rec Center, and an academic building, plus, you'll have time to ask questions and check out spots you'll be spending the week in.

CSU Ghost Tour:

Barbie & Team
Meet in front of Ammons Hall

Step into the spooky side of campus with a guided CSU Ghost Tour, where you'll hear eerie stories, local legends, and unexplained happenings tied to historic buildings and past residents. This fun and slightly chilling experience is perfect for anyone curious about the mysteries that may still linger at CSU after dark.

CSU Stadium Tour:

Kristie McGinnis
Lobby of Smith Alumni Center

A sneak peak into Canvas Stadium, covering about a mile of ground, making stops at the Smith Alumni Center, the New Belgium Porch, the Indoor Club level, the Stadium Club level, and the Markley Family Hall of Champions.

CSU South Campus Tour:

Around the Horn Bus Stop

Take a trip to CSU's South Campus and explore veterinary and animal science in action. Participants will take part in a veterinary-focused experience while learning more about related programs and opportunities.

STEM Workshop Information

Green Jobs: Exploring Forests Careers

**Danielle Ardrey
Forestry, Rm 217**

Want a job that makes a difference? Come experience world of green jobs, where you can help the planet and build a solid future for yourself. We're going to dive into hands-on activities that show how you can work outdoors, boost environmental health, and create positive change—all while building a cool career.

Unearthing the Human Experience

**Josh Zaffos
Morgan Library, Room 173**

Have you ever wondered what truly makes us human? Step into the shoes of an anthropologist and explore the mysteries of the past.

CSU Foothills Campus Exploration

Animal Reproduction Biotech Lab, W104

Get ready for a CSU Foothills Campus exploration day! Come prepared with questions and a good attitude as we explore together.

STEM Workshop Information

Pathways in the Atmospheric Sciences

**Russ Schumaker
Colorado Climate Center, Foothills Campus**

The workshop will feature presentations from Atmospheric Science grad students at CSU showcasing different pathways in the field, hands on demonstrations on weather science, and a weather balloon launch.

Please click on the QR code for Google Maps driving directions to the CSU Climate Center Building
3915 W. Laporte Ave, Fort Collins, CO

Wind Turbine & Design Lab

**Mike Estergard
University Square, Room 205**

Learn about the science and engineering of the tallest forms of electric generation- wind turbines. Compete with other student teams in creating a functioning fan blade design while learning about turbine basics and doing some fact-checking of common misunderstandings of these modern clean energy marvels.

Sound of Science

**Toby Swaford
University Square, Room 205**

Explore the world of sound and discover how vibrations and pressure waves can be used to make beautiful music and annoying noises. Learn how to hear the secret sounds of household items and how the right frequency can get you (and other things) dancing.
